You can also visit the following sites if you want some more helpful publications:

<https://www.sterlingbookhouse.com/books/marine-and-nautical/>

<https://www.ari.edu/Publications.aspx>

The University library has many of these books but it would help to have your own copy as well.

Do however carry the instruments that have been mentioned. You can buy from the UK also but it would be more expensive than buying in India.

Do carry your DG Shipping medical in Annexure IV format unless you already have your MCA NoE with you.
